WORLD CITIZEN VISUALIZATION FOR A BRIGHTER FUTURE

a perfect antidote to fears of impending doom and worse case scenarios. 2012

2009 - 2016 • The United States withdrawals its military as the Iraqi government takes over the management of its own country. • American forces return from Afghanistan. • Democratic restructuring of the United Nations Security Council to reflect the balance and ideals of true Democracy. • New solar cell technology is discovered allowing for the creation of solar powered automobiles with the strength of gas powered engines. • Israelis and Palestinians sign a peace deal and tear down the walls as the two states merge into one as first state and cornerstone for a future United States of Earth.

2017 - 2021 • Every man and woman on the planet is equipped with a hand held solar powered computer connected to the internet. • Billions of jobs created for the transition from the oil to solar age.

2022 - 2025 • Nuclear disarmament. • Vatican City is the last state to join the newly established United States of Earth. • Environmental destruction and global warming begin to reverse as millions of gas powered vehicles are recycled.

2026 - Forward • Humanity is united and free to explore the universe without danger of self destructing.
